DEPARTMENT OF COMMERCE
OFFICE OF THE COMMISSIONER (RE: NEW PAGE CORP.
1401 CONSTITUTION AVE - NW VS CHINA.)
WASHINGTON, DC 20230

I trust this letter finds you and yours enjoying good health. I hope you and your staff have a Merry Christmas and a Better New Year.

I write in response to published reports that you are seeking public comment "on whether you should break with your court-tested policy and impose import duties on products made with government help in non-market economies like China.

In the interest of full disclosure, I lost several jobs because of the saturation of Chinese goods invading America. I try to always buy "made in America" product but its becoming very difficult.

American workers can't compete with someone being paid $.35¢ an hr and a bowl of rice. Maybe the AFL-CIO should attempt to unionize South East Asia. That action would level the playing field.

Seriously, I urge you to fight this menace and save NEW PAGE CORP. now and other American companies in the future.

I wish Congress would wake up and protect American workers who vote them instead of stabbing them in the back with issues like this.

We must unite and fight this economic fascism now.

Thank you for addressing my concerns. Please keep me informed of your actions.

Thank you for reading my letter. I prefer letters to e-mails. They're more personal. Besides, I have ↓

security issues with the Internet.

MAY GOD BLESS YOU AND YOURS.

MAY GOD BLESS AMERICA - NOW MORE THAN EVER.

WITH ALL GOOD WISHES,

Ph#1-201-703-8907

HAROLD JOHN COMPPER
