General Comment

Comments on Docket No. ITA-2010-0012 (RIN 0625-AA81).

This commenter represents several grantees, zone operators and users as a professional consultant. My comments are that they NAFTAZ comments are to be included as my own, (attached hereto and made a part hereof) for this NPRM.

Please accept these comments and those attached as my comments, supporting 100% the views and comments of the NAFTAZ.

In order to remain competitive, and meet the Administration's committment to double exports, these changes to the FTZ program, suggested by the NAFTAZ, should be wholeheartedly adopted.

Furthermore, all FTZ activity, including warehousing, storage, assembly, manufacturing and processing should be continued in the FTZ program as this benefits all labor in the USA and is critical for our competitiveness in the future.

Curtis Spencer

President, IMS Worldwide, Inc.
