RE: Countervailing Duty Investigation of Wire Decking from the People's Republic of China

SUBJECT: Quantity and Value Questionnaire

Dear Sir or Madam:

On June 25, 2009, the Department of Commerce (the Department) initiated a countervailing duty investigation to determine whether producers/exporters of wire decking from the People's Republic of China (PRC) have benefitted from countervailable subsidies bestowed by the Government of the PRC. We initiated the investigation based on a petition filed by AWP Industries, Inc., ITC Manufacturing, Inc., J&L Wire Cloth, Inc., and Nashville Wire Products MFG. Co., Inc. The proposed period of investigation (POI) is January 1, 2008, through December 31, 2008.

In advance of the issuance of the full countervailing duty questionnaire, the Department requests that you respond to Attachment I to this letter, which requests information on the quantity (in units) and U.S. dollar sales value of all of your exports/shipments of wire decking to the United States during the period January 1, 2008, through December 31, 2008. A definition of the merchandise covered by the scope of this investigation is included in Attachment II. General instructions for responding to this letter are contained in Attachment III. Please be advised that receipt of this letter does not indicate that you or your exporter will be chosen as a mandatory respondent. In addition, please be aware that your response to this letter may be subject to an on-site verification by Department officials. **Failure to provide accurate information to cooperate to the best of your ability may result in the Department resorting to the use of adverse inferences within the meaning of section 776 of the Tariff Act of 1930 ("the Act").**

Your response to the Quantity and Value (Q&V) questionnaire in Attachment I must be received by the Department no later than July 10, 2009.

Please note that your submission in response to the Q&V questionnaire in Attachment I and all subsequent submissions to the Department must be served on all interested parties. The service instructions are included in Attachment III. The list of interested parties may be found at <http://www.ia.ita.doc.gov/apo/apo-svc-lists.html>.

We appreciate your attention to these matters. If you have any questions or concerns, please contact Robert Copyak at (202) 482-2209, respectively.

Sincerely,

Melissa G. Skinner

Attachment I

Where it is not practicable to examine all known producers/exporters of subject merchandise, section 777A(e)(2) of the Tariff Act of 1930, as amended, permits us to investigate (1) a sample of exporters, producers, or types of products that is statistically valid based on the information available at the time of selection, or (2) exporters and producers accounting for the largest volume and value of the subject merchandise that can be reasonably examined.

In the chart below, please provide the total quantity (in units) and total value (in U.S. dollars) of all your sales of merchandise covered by the scope of this investigation (see Attachment II to this questionnaire), produced in the People's Republic of China, and exported/shipped to the United States during calendar year 2008 (January 1, 2008, through December 31, 2008).

	All Exports of Subject Merchandise	
	Total Quantity (KG)	Total Value (U.S. \$)

Scope of the Countervailing Duty Investigation Wire Decking from the People's Republic of China

The scope of the investigation covers welded-wire rack decking, which is also known as, among other things, “pallet rack decking,” “wire rack decking,” “wire mesh decking,” “bulk storage shelving,” or “welded-wire decking.” Wire decking consists of wire mesh that is reinforced with structural supports and designed to be load bearing. The structural supports include sheet metal support channels, or other structural supports, that reinforce the wire mesh and that are welded or otherwise affixed to the wire mesh, regardless of whether the wire mesh and supports are assembled or unassembled and whether shipped as a kit or packaged separately. Wire decking is produced from carbon or alloy steel wire that has been welded into a mesh pattern. The wire may be galvanized or plated (e.g., chrome, zinc or nickel coated), coated (e.g., with paint, epoxy, or plastic), or uncoated (“raw”). The wire may be drawn or rolled and may have a round, square or other profile. Wire decking is sold in a variety of wire gauges. The wire diameters used in the decking mesh are 0.105 inches or greater for round wire. For wire other than round wire, the distance between any two points on a cross-section of the wire is 0.105 inches or greater. Wire decking reinforced with structural supports is designed generally for industrial and other commercial storage rack systems.

Wire decking is produced to various profiles, including, but not limited to, a flat (“flush”) profile, an upward curved back edge profile (“backstop”) or downward curved edge profile (“waterfalls”), depending on the rack storage system. The wire decking may or may not be anchored to the rack storage system. The scope does not cover the metal rack storage system, comprised of metal uprights and cross beams, on which the wire decking is ultimately installed. Also excluded from the scope is wire mesh shelving that is not reinforced with structural supports and is designed for use without structural supports.

Wire decking enters the United States through several basket categories in the Harmonized Tariff Schedule of the United States (“HTSUS”). U.S. Customs and Border Protection has issued a ruling (NY F84777) that wire decking is to be classified under HTSUS 9403.90.8040. Wire decking has also been entered under HTSUS 7217.10, 7217.20, 7326.20, 7326.90, 9403.20.0020 and 9403.20.0030. While HTSUS subheadings are provided for convenience and Customs purposes, the written description of the scope of the investigations is dispositive.

Select "Investigation" to find the most up-to-date service list.

7. Request **proprietary treatment** for information submitted that you do not wish to be made publicly available. As a general rule, the Department places all correspondence and submissions received in the course of a countervailing duty proceeding in a public reading file. However, information deemed to be **proprietary information** will not be made available to the public. If you wish to make a request for proprietary treatment for particular information, refer to sections 351.304 and 351.304(a)(2) of the Department's regulations. Submit the request for proprietary treatment no later than one business day following the submission of the proprietary version of your response accompanied by:

- (1) a non-proprietary (public) version of your response that is in sufficient detail to permit a reasonable understanding of the information submitted in confidence,¹ and/or

Responses, or portions thereof, that are not adequately summarized may be returned to you and not used.

8. Submit the statements required regarding limited release of proprietary information under the provisions of an **administrative protective order** (APO). U.S. law permits limited disclosure to representatives of parties (e.g., legal counsel) of certain business proprietary information, including electronic business proprietary information, under an APO. (Note that data received under an APO cannot be shared with others who are not covered by the APO.) Under the provisions governing APO disclosure, you must submit either:

- (1) a statement agreeing to permit the release under APO of information submitted by you in confidence during the course of the proceeding, or

¹ Generally, numerical data are adequately summarized if grouped or presented in terms of indices or figures ranged within ten percent of the actual figure. If a particular portion of the data is voluminous, use ranged figures for at least one percent of the voluminous portion.

(2) a statement itemizing those portions of the information which you believe should not be released under APO, together with arguments supporting your objections to that release.

We are required by our regulations to reject, at the time of filing, submissions of business proprietary information that do not contain one of these statements. You must state in the upper right-hand corner of the cover letter accompanying your response whether you agree or object to release of the submitted information under APO. (See section 351.303 of the Department's regulations.)²

9. Place brackets ("[...]") around information for which you request business proprietary treatment. Place double brackets ("[[...]]") around information for which you request proprietary treatment and which you do not agree to release under APO.
10. Provide to all parties whose representatives have been granted an APO (as identified on the Department's website at: <http://www.ia.ita.doc.gov/apo/apo-svc-lists.html>) a complete copy of the submission, proprietary and public versions, except for that information which you do not agree to release under APO. If you exclude information because you do not agree to release it under APO, submit with your response to the Department a certificate of service and a copy of the APO version of the document containing the information that you agree may be released under APO. For parties that do not have access to information under APO, please provide a public version only.
11. Prepare your response in typed form and in English. Repeat the question to which you are responding in your narrative submission and place your answer directly below it.

² If you do not agree to release under APO all or part of the proprietary information, but we determine that the information should be released, you will have the opportunity to withdraw the information (see section 351.304(d) of our regulations).
