

components: cameras, monitors, time lapse video recorders, compact disc players, turntables, power supplies, camera housings of steel and aluminum, mounting equipment, positioning devices and controls, panic and hold up buttons, shock sensors, multiplexers, switches, processors, flex tubes, junction boxes, cable and packaging. Some 90 percent of the components are sourced abroad. Some 5-7 percent of the finished products are exported.

Zone procedures would exempt Ultrak from Customs duty payments on foreign materials used in production for export. On domestic shipments, the company would be able to defer duty on the foreign-sourced components (duty-rates ranging between 1-5%). Foreign merchandise would also be exempt from state and local ad valorem taxes. The application indicates that the savings from zone procedures will help improve the plant's international competitiveness.

In accordance with the Board's regulations, a member of the FTZ Staff has been designated examiner to investigate the application and report to the Board.

Public comment is invited from interested parties. Submissions (original and 3 copies) shall be addressed to the Board's Executive Secretary at the address below. The closing period for their receipt is October 21, 1997. Rebuttal comments in response to material submitted during the foregoing period may be submitted during the subsequent 15-day period (to November 5, 1997).

A copy of the application and accompanying exhibits will be available for public inspection at each of the following locations:
