General Comment

RE: Public Utility. Private, non-profits (many economic development organizations) should be included with respect to being paid fees if contractual arrangement with grantee exists.

RE: Fees. ROI should include past subsidies provided by economic development organizations in order to keep zone project active and viable over the long term.

RE: 2 years delayed compliance. Need authority or some other directive to require correction/modification, if necessary, of non-compliant provisions of Grantee/Operator agreements.

RE: Grantee Liability. Need to more clearly define "detailed oversight/direction of operators/users." i.e. what activities of "oversight" are "detailed" and which are not.
