Steel Import Monitor Tutorial

Overview of the Import Monitor

Tutorial Overview

This Tutorial will cover:

- **Data table features**
- **Types of data views available**
 - **Product view**
 - **Country view**
 - **HTS view**
 - **Graphs**
 - **Summary tables**
- **Additional data**

Data Table Features

Tables in the Import Monitor allow you to view the import data compiled from two different sources: Census Bureau data and Steel Import Licensing data.

Graph	Country	Census Data												License Data

The tables sort data in order of descending volume imported during last three months of Census import data, including preliminary import data.

Data Table Features

- Census reports of imports of steel mill products come from the Census Bureau's foreign trade division: http://www.census.gov/foreign-trade/Press-Release/steel_index.html
- License data are collected by the Commerce Department via licenses collected from individual import shipments. These data are aggregated, checked for outliers and errors, and used to provide early information to the public.
- The Import Monitor records imports from both sources and is updated on a regular basis, with Census data updates occurring twice a month and licensing data updates occurring weekly, as footnoted at the bottom of tables and graphs.

Data Table Features

Twice a month, Census releases import statistics on steel – first the preliminary statistics, followed by the official month’s statistics approximately ten days later. When preliminary Census import data become available, they are added as a yellow column in the table.

Licensing data are reported for the same month as preliminary data, and both are replaced in the table with Census final data when they are released monthly.

Types of Data Views Available

The Import Monitor offers three primary categories to view steel mill import data:

- Product view
- Country view
- Harmonized Tariff Schedule (HTS) view

Types of Data Views – Product View

The product view offers 15 months of Census and license import data displaying country of origin detail for all steel mill products...

Graph last modified as of April 7, 2009 ; Commerce license data used for the last months appear in a different color. Licensing for Steel Mill Products began on June 9, 2005

Types of Data Views – Graphs

Graphs display 25 months of combined import data, with Census data shown in blue and license data in purple.

The horizontal line indicates the monthly average of import data for the previous year and is used to offer a comparison of monthly data.

Additional Views

Tables are available which show the 6 digit HTS codes that make up each product group.

HTS Codes For Line Pipe -- C & A

HTS Code	Description
730419	Line Pipe, O/T Stainless Steel, Seamless, Of A Kind Used For Oil Or Gas Pipelines
730511	PIPE, OIL LINE ETC OV16IN IR ST, LONG SUB ARC WELD
730512	PIPE, OIL LINE ETC OV16IN IR OR ST, LONGI WD NESOI
730519	PIPE, OIL LINE ETC OV16IN IR OR STEEL, CLOSE NESOI
730619	Pipe, Line, Welded O/T Ss, Riveted Or Sim Closed, Nes, For Oil/Gas Pipeline

February Data Comparison: Preliminary Census and License Data (in metric tons)

Product	February 2009 Preliminary Census Data	February 2009 License Data	February 2009 Census - License	Percent Difference: License relative to Census
All Products	1,408,448	1,478,965	-70,518	(5%)
Bars-Cold Finished -- C & A	20,673	22,165	-1,492	(7%)
Bars-Cold Finished -- S	4,834	5,056	-222	(5%)
Bars-Hot rolled -- C & A	58,306	60,433	-2,127	(4%)
Bars-Hot rolled -- S	1,151	1,161	-11	(1%)

The Import Monitor also provides the option to compare licensing data with Census data for all product groups. (Table is available from the 'Detailed Data' section on the Import Monitor home page.)

Additional Views

Also available are tables detailing the percentage that each product group makes up of a 6 digit HTS category. The tables offer an historic comparison of import data using 2004 Census data and the most recent 1 year of licensing data.

In the example shown, HTS code 730431 is made up of three 10 digit codes, two of which fall into the mechanical tubing product group (7304313000 and 7304316050) and one which falls into the pressure tubing product group (7304316010).

Product Groups Included in HTS Code 730431
Based on 2004 Census Data

6-digit HTS Code	Product Groups	2004 Census Data		Licensing Data Early Warning April 2008- April 2009	
		Percentage of Product's Quantity Makes of 6-digit code	Percentage of Product's Value Makes of 6-digit code	Percentage of Product's Quantity Makes of 6-digit code	Percentage of Product's Value Makes of 6-digit code
730431	Mechanical Tubing -- C & A	56.98%	59.78%	62.61%	57.06%
	Pressure Tubing -- C & A	43.02%	40.22%	37.39%	42.94%

The percentages reflect the proportions of volume and value import data reflected by mechanical and pressure tubing for imports of HTS code 730431 in the two time periods.

A reference table matching a 10 digit code to its product group can be found on the SIMA website at: http://enforcement.trade.gov/steel/license/SMP_byHTS.pdf

Additional Views – Summary Tables

Steel import data can also be viewed using both monthly and annual summary tables.

The monthly summary tables show 15 months of data using four aggregate product categories – pipe and tube, flat products, long products, and semi-finished – for both carbon & alloy and stainless steel.

Additional Data – Raw License Data

The Import Monitor contains the option to export three months of the latest license data into a text file. This option allows users to generate their own data sets and graphs and is updated weekly.

The file has a “.txt” extension and is comma delimited, containing the variables country name, 6 digit HTS, quantity, value, average unit value, and month of import.

Additional Data – Notable Trends

SIMA also offers a statistical trend report on notable increases and decreases in steel imports. The table uses a ratio of current 3 month data to historic 9 month data to detect significant increases or decreases in steel imports by country and product. The trends are reported as a percentage change of quantity.

Notable Increases in SIMA's Steel Import Trends by Country and Product				
Country names are links to corresponding SIMA graphs				
Country	Product	Average monthly quantity January 2009 - March 2009 (metric tons)	Average monthly quantity April 2008 - December 2008 (metric tons)	Percent change from Historic to Current average quantity
